Full Service Fire Extinguisher Company

Protecting People. Maintaining Compliance. Simplifying Property Management

For more than 40 years, Denny's Fire Control has helped businesses throughout the greater Chicago region, Northern and Central Illinois, and Southern Wisconsin protect their employees, facilities, and operations through comprehensive fire protection and life safety services. As an employee-owned company, Denny's delivers far more than fire extinguishers—we provide the expertise, inspection services, equipment, training, and ongoing support organizations need to maintain safe, compliant workplaces.

Services by NFPA 10 Certified Professionals

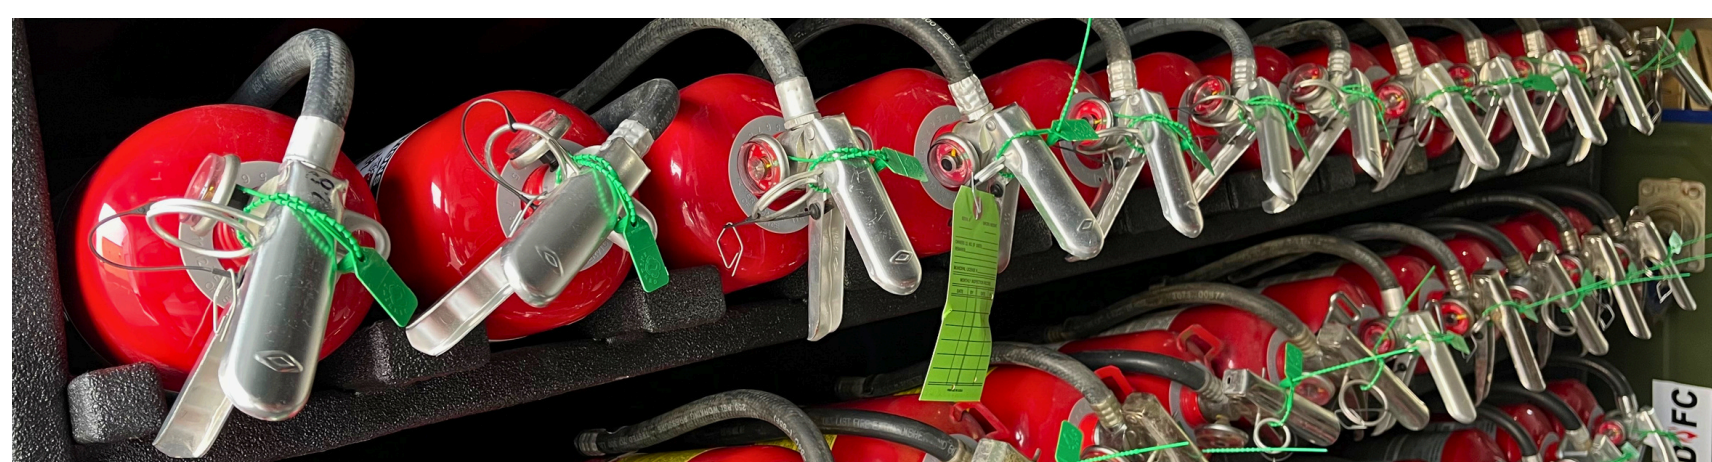

Compliance, Testing, Inspections, Maintenance & Training

- **Fire Extinguisher Testing, Inspection & Certification** - Code-compliant inspections, maintenance, hydrostatic testing, and recertification performed by NFPA 10 certified technicians.
- **Preventative Maintenance Programs** - Scheduled service programs that help keep fire protection and life safety equipment operational, compliant, and ready for use.
- **Fully Stocked Inventory** to replenish or install your fire safety, first aid cabinets and AED's when needed.
- **Emergency Lighting Inspections** - Routine testing and documentation to help ensure emergency lighting systems perform when needed most.
- **Eye Wash Station & Emergency Shower Inspections** - OSHA-compliant inspections, testing, and maintenance
- **AED Inspection & Program Support** - Inspection, maintenance, battery and pad replacement, and readiness verification for Automated External Defibrillators.
- **SCBA Life Extension Services** - Inspection, testing, and life extension services that can double the life of SCBA cylinders for up to 15 additional years.
- **CO₂ Cylinder Testing** - Certified UE (Ultrasonic Examination) testing and recertification services for compressed gas cylinders.
- **Live Fire Extinguisher Training** - Hands-on employee training that builds confidence and prepares personnel to respond safely during the early stages of a fire emergency.
- **Workplace Safety Consulting** - Expert guidance on NFPA 10 Code compliance, and selecting, placing, and maintaining fire protection / life safety equipment based on your facility's specific hazards and operational needs.
- **Responsive Service & Ongoing Support** - A certified, knowledgeable team dedicated to helping customers maintain safe, compliant, and well-prepared workplaces through dependable service and long-term partnership.

Full Service Fire Extinguisher Company Supporting Commercial, Industrial, Municipal and Multi-Tenant Residential Markets

Denny's Fire Control supplies a complete range of fire extinguishers, cabinets, brackets, signage, and accessories to meet your fire protection needs.

Our inventory is fully stocked with the most commonly specified fire extinguisher types and sizes, allowing us to respond quickly to routine replacements, to keep your business in compliance with NFPA-10 code requirements. For specialized applications, we also source and supply special-order fire extinguishers, custom cabinets, vehicle and marine extinguishers, clean agent extinguishers, and a wide range of fire protection accessories.

Division 10 & Life Safety Supplies

Denny's Fire Control provides a comprehensive selection of Division 10 specialties and workplace life safety equipment designed to help organizations create safer, more prepared facilities while supporting OSHA and industry compliance requirements.

Our product offerings include medical aid cabinets and first aid supplies, automated external defibrillators (AEDs), emergency eyewash stations and safety showers, fire safety signage, cabinets, and other essential life safety equipment. We also provide inventory management, inspections, and ongoing service programs that help ensure critical emergency equipment remains properly stocked, maintained, inspected, and ready when it is needed most.

Whether you're outfitting a new facility, upgrading existing equipment, or establishing a comprehensive workplace safety program, Denny's Fire Control serves as a single, trusted source for the products, expertise, and ongoing support your organization depends on to protect employees, visitors, and occupants.
